## CA Connectors

### Silver Banana's

CA Connectors Silver Banana's are designed to give a good grip, and to be flexible in use. The Banana's conducting pin is made out of Phosphor Bronze, and the body and pin are heavily Silver plated. This will ensure a good and long lasting connection. The form of the Banana itself make's sure the grip is exelent, and will remain. The Silver Banana's are suited for Soldering as wel as screwing.
